1.0 Policy Statement

Outcomes First Group places the safety of young people as its highest priority, including safeguarding children and young people when using digital technology and mobile devices. Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety and the safe use of technology is therefore an essential part of the school's provision. Children and young people need the help and support of the school to recognise and avoid online and technology-related safety risks and build their resilience.
